- Building Envelope/Fenestration

- Code Compliance Review
- Litigation Support
- Expert Witness Testimony

ProNet provides tailored solutions to specific requirements for our clients. Civil/Structural issues whether resulting from damage, possible error in design, or construction defect can escalate from simple to complex quickly. Our highly experienced team routinely identifies what happened and why, and determine corrective measures.

Facing litigation can be daunting, which is why our clients rely on our non-biased scientific assessments to deliver a nonambiguous report in a timely manner. Technical facts are presented and supported by expert witness testimony.
